Independent Auditor's Report

To the Members of Cancer Research Society / Société de recherche sur le cancer

Opinion

We have audited the financial statements of Cancer Research Society / Société de recherche sur le cancer (the "Society"), which comprise the statement of financial position as at August 31, 2024, and the statements of operations, changes in fund balances and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Society as at August 31, 2024, and the results of its operations and its cash flows for the year then ended in accordance with Canadian accounting standards for not-for-profit organizations ("ASNPO").

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Society in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with ASNPO, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Society's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Society or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Society's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Society's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Society's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Society to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

December 6, 2024

The accompanying notes are an integral part of the financial statements.

Notes to the financial statements

August 31, 2024

1. Status and nature of activities

Cancer Research Society / Société de recherche sur le cancer (the "Society") was incorporated under Part III of the *Business Corporations Act* (Québec) and is a registered charity under the *Income Tax Act* (Canada). Its operations consist of raising and distributing funds in the form of research grants and fellowships in order to support research.

2. Accounting policies

The financial statements have been prepared in accordance with Canadian accounting standards for not-for-profit organizations and include the following significant accounting policies:

Fund accounting

The Society uses the restricted fund accounting method to report its activities.

(a) General Fund

This fund reports the assets, liabilities, revenues and expenses related to all programs and administrative activities of the Society, except for those related to the externally or internally Restricted Funds.

(b) Restricted Funds

These funds report the assets, liabilities, revenues and expenses related to the externally or internally Restricted Funds. These funds finance research for the advancement of science aimed at preventing, detecting or treating any given cancer as directed by and agreed with the donor or partner.

Revenue recognition

The unrestricted contributions are recognized as revenue in the General Fund in the year in which they are received or receivable, if the amount to be received can be reasonably estimated and collection is reasonably assured. The restricted contributions for operating activities are recognized as revenue in the General Fund in the year when the related expenses are committed.

All other restricted contributions are recognized as revenue in the Restricted Funds in the year in which they are received or receivable, if the amount to be received can be reasonably estimated and collection is reasonably assured.

Investment income is recognized as revenue in the year in which it is earned.

Donated services

The Society derives significant benefit from time and services donated by volunteers. Because of the difficulty of determining their fair value, these valuable contributions are not recorded in the financial statements.

Financial instruments

Initial measurement

Financial assets and financial liabilities originated or exchanged in arm's length transactions are initially recognized at fair value when the Society becomes a party to the contractual provisions of the financial instrument. Financial assets and financial liabilities originated or exchanged in related party transactions are initially recognized at cost.

Notes to the financial statements

August 31, 2024

2. Accounting policies (continued)

Financial instruments (continued)

Initial measurement (continued)

The cost of a financial instrument in a related party transaction depends on whether the instrument has repayment terms. The cost of financial instruments with repayment terms is determined using its undiscounted cash flows, excluding interest and dividend payments, less any impairment losses previously recognized by the transferor. The cost of financial instruments without repayment terms is determined using the consideration transferred or received by the Society in the transaction.

Subsequent measurement

All financial instruments are subsequently measured at amortized cost except for investments, which are measured at fair value at the statement of financial position date. Fair value fluctuations, including interest earned, interest accrued, gains and losses realized on disposal and unrealized gains and losses are included in revenue.

Transaction costs

Transaction costs related to financial instruments measured at fair value after their initial recognition are expensed as incurred. Transaction costs related to the other financial instruments are added to the carrying value of the asset or netted against the carrying value of the liability and are then recognized over the expected life of the instrument using the straight-line method. Any premium or discount related to an instrument measured at amortized cost is amortized over the expected life of the item using the straight-line method and recognized in the statement of operations as interest revenue or expense.

Impairment

With respect to financial assets and financial liabilities measured at cost or amortized cost, the Society recognizes in the statement of operations an impairment loss, if any, when it determines that a significant adverse change has occurred during the period in the expected timing or amount of future cash flows. When the extent of impairment of a previously written-down asset decreases and the decrease can be related to an event occurring after the impairment was recognized, the previously recognized impairment loss shall be reversed in the statement of operations in the period the reversal occurs.

Property, equipment and software

Property, equipment and software are recorded at cost. Contributed equipment is recorded at fair value at the date of the contribution. Amortization of property, equipment and software is based on their estimated useful life using the declining balance method at an annual rate of 20%.

Leasehold improvements are recorded at cost. Amortization is provided for using the straight-line method over the remaining duration of the lease, as soon as the leasehold improvements are in use.

When conditions indicate that a capital asset is impaired, the net carrying amount of the capital asset shall be written down to the asset's fair value or replacement cost. The write-downs of capital assets shall be accounted for as expenses in the statement of operations. A write-down shall not be reversed.

Notes to the financial statements

August 31, 2024

2. Accounting policies (continued)

Lease inducement

The lease inducement consists of a leasehold improvement allowance paid by the landlord. The inducement will be amortized against premises expenses using the straight-line method over the remaining duration of the lease.

Allocation of expenses

The Society engages in various fundraising programs. The costs of each program include the costs of personnel and activities that are directly related to the program, and a portion of the premises and administrative expenses of the Society.

Administrative salary expenses are allocated to programs based on the percentage of time devoted to these programs by administrative personnel. Premises expenses are allocated to programs based on the percentage of time devoted to these programs by all personnel.

Foreign exchange translation

Monetary assets and liabilities denominated in foreign currencies are translated at the year-end exchange rate, while non-monetary items are translated at historical rates. Foreign currency revenue and expenses are translated at the rate of exchange prevailing at the transaction date. Realized gains and losses on translation are included in the statement of operations.

Use of estimates

The preparation of financial statements, in conformity with Canadian accounting standards for not-for-profit organizations, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosures of contingent assets and liabilities at the date of the statement of financial position and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates.

Administration	367,371	240,530
	1,124,018	903,704

8. Allocation of expenses (continued)

Premises expenses are allocated as follows:

Annual campaigns
Major and planned gifts
Fundraising events and other
Research grants and fellowships
Administration

2024	2023		
\$	\$		
107,927	120,743		
16,002	16,745		
67,673	63,324		
32,336	31,640		
66,089	56,934		
290,027	289,386		

9. Related party transactions

The Society carried out transactions with directors in the amount of \$35,000 (\$60,000 in 2023).

10. Commitments

(a) Fund balances – research grant and fellowship commitments

The Society has approved commitments for research grants and fellowships as set out below. Many of these grants and fellowships involve multi-year programs, which are subject to application for renewal on an annual basis. Though failure to renew the grants and fellowships would in most cases invalidate the programs, there is an implied commitment extending into the future. The amounts below assume annual renewal of approved multi-year programs:

	\$
2025	16,525,000
2026	11,959,167
2027	3,221,667
2028	1,696,667
2029	800,000
	34,202,501
Less: pledge by third	
parties	(2,180,000)
	32,022,501

(b) The Society's other total annual minimum commitments are as follows:

	Premises	Equipment and other	Total
	\$	\$	\$
2025	306,263	12,200	318,463
2026	306,263	12,200	318,463

2028	178,653	3,811	182,464
2029	_	3,811	3,811
	1,097,442	41,550	1,138,992

Notes to the financial statements

August 31, 2024

11. Financial instruments

Because of its financial assets, the Society is exposed to the following risks related to the use of financial instruments:

Market risk

Market risk is the risk that the fair value or future cash flows of the Society's financial instruments will fluctuate because of changes in market prices. Some of the Society's financial instruments expose it to this risk, which comprises currency risk, interest rate risk and other price risk.

a) Currency risk

The Society holds cash in the amount of CAN\$11,598 (CAN\$12,732 in 2023), in U.S. dollars, as well as cash and cash equivalent, U.S. equity and a participation in an international equity fund which is also in U.S. dollars. Consequently, the Society is exposed to changes in foreign currencies. The same applies to the earned income associated with these investments.

b) Interest rate risk

Investments in bonds bear interest at fixed rates. Consequently, a change in market interest rates will have an impact on the fair value of these investments.

c) Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market. The Society is exposed to other price risk through its investments in equities and investment funds for which the value fluctuates with the quoted market price.

Credit risk

The Society holds cash and investments in bonds. Therefore, there is a credit risk that the bond issuer will be unable to pay its obligations toward the Society and this will have an impact on the assets of the Society. In order to minimize the counterparty default risk, the Society trades its cash through a Canadian chartered bank as defined by the *Bank Act* (Canada), while, for bonds, the Society requires a minimum quality rating of A.

12. Comparative figures

Certain comparative figures have been reclassified in order to conform to the current year's presentation.
